

CORPORATE & INDUSTRIAL MOBILITY SOLUTIONS

The New Standard in Mobility

Since 1999 we have provided factory and corporate staff transport, airport transfers, VIP mobility and operational fleet solutions across Kocaeli and the wider region — with international quality standards, digital operations tracking and single-point coordination.

FLEET LEASING

SPECIAL SERVICES

About Us

Ekerhan Seyahat was built on more than a quarter of a century of hands-on experience that our founder has gathered in staff transport in Kocaeli since 1999. From the very first day we learned in the field how industrial shift patterns work and that production does not tolerate even a single minute of delay.

Today we serve the region's leading automotive, industrial, healthcare, hotel and maritime organizations — primarily in Kocaeli — with staff transport, airport transfers, VIP mobility and vehicle rental. In every project we manage the entire process, from route planning to shift coordination, in line with our clients' key performance indicators (KPI) and service level agreements (SLA), targeting on-time arrival, safe driving and zero defects.

For the senior executives and international guests of our corporate clients we also deliver privileged mobility and hospitality experiences through yacht charters and marine events, helicopter transfers and private flight arrangements.

We combine the safety, transparency and sustainability standards expected by international companies with our local experience. With periodic operations reports and data that supports carbon footprint monitoring, we act not merely as a transport company but as a forward-looking and dependable solution partner.

A shift-aligned shuttle fleet for factory and corporate personnel.

Surveillance audit and certificate renewal

Since 1999 we have carried factory shifts, executives' time and guests' comfort. Every trip is a commitment; every arrival is proof of trust.

Our Vision, Mission and Quality Policy

Our Vision

To be the region's most trusted, innovative and environmentally responsible solution partner, serving corporate and industrial mobility at international standards with our technology- and data-driven infrastructure.

Our Mission

To deliver punctual, safe and sustainable mobility solutions that add value to our partners' operations, drawing on a quarter century of field experience and our international quality standards.

Our Quality Policy

With a zero-accident target and occupational safety as our priority: to comply with legal requirements and our ISO management systems in every process, and to maximize customer satisfaction by continuously improving service quality through digital fleet tracking and environmental standards.

Why Ekerhan Seyahat?

A quarter century of field knowledge

Since 1999 we have known the shift patterns of Kocaeli industry from the inside, so a new route is designed correctly from day one.

Certified management systems

International ISO management system certificates with annual surveillance audits: audit-ready records, procedures and reporting.

Software we built ourselves

Trip, timesheet and cost data on one panel, exportable at any time by your procurement and HR teams.

Continuity guarantee

A reserve pool of vehicles and drivers plus a 24/7 operations center: your production line never waits, even on a breakdown day.

Our Certificates and Management Systems

Our ISO management system certificates are issued by IQR International Certification Services LLC under IAS accreditation (MSCB-135) and can be verified by certificate number via IAF CertSearch.

TRAVEL AGENCY OPERATING LICENSE

Group A Travel Agency

Group A travel agency operating license issued by the Ministry of Culture and Tourism of the Republic of Türkiye. Our tours, transfers and tourism organizations are carried out under this license.

Certificate No: 18696 · Issued by: T.C. Kültür ve Turizm Bakanlığı

Certification and Scope

Certification body: IQR International Certification Services LLC — IAS accreditation (MSCB-135, ISO/IEC 17021-1:2015).
Scope: staff and student transport, airport transfers and vehicle rental services. The certification cycle is three years with annual surveillance audits.

Licenses and Memberships

TSE HYB Service Competence Certificate · TÜRSAB · IATA · travel agency license issued by the Turkish Ministry of Culture and Tourism, plus international memberships.

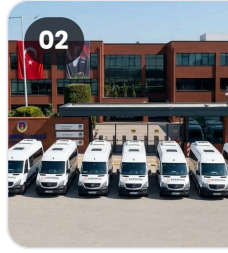

End-to-End Corporate Mobility

From staff shuttles to VIP transfers, from fleet leasing to yacht and helicopter organization, every mobility requirement is managed under one contract and a single point of coordination.

Staff Transport

Shift-aligned shuttle operations for factories and institutions, reported daily.

Student Transport

School transport planned around safety, from kindergarten through university.

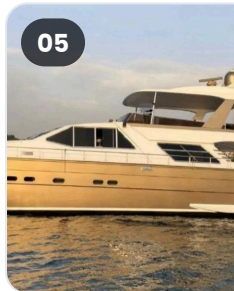

VIP & Airport Transfer

Flight-tracked meet-and-greet and luxury transfers for your guests and executives.

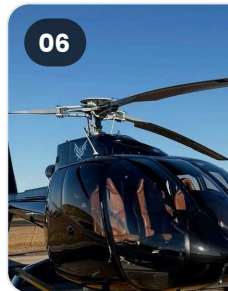

Vehicle & Fleet Leasing

Monthly and yearly operational leasing, so your capital is not tied up in vehicles.

Yacht Charters

Corporate hospitality from the Bosphorus to the Mediterranean with yachts and event yachts from 15 to 42 metres.

Helicopter & Private Jet

Helicopter transfers and private jets sized to your group, including the Gulfstream G500.

City Transfer

From İzmit to Karamürsel, from Gebze to the airport: one call and we are at your door, with economy and VIP options.

Holiday & Culture Tours

From Cappadocia to Ephesus, from Istanbul to the Aegean coast: transport, accommodation and guiding planned from one source.

One Quotation, One Contract

Staff shuttles, VIP transfers, fleet leasing and event mobility can be combined in a single contract, with invoicing and reporting handled centrally.

Staff Transport (Factory & Institution)

In a major industrial region such as Kocaeli, getting your employees to work on time, safely and comfortably is critical to your productivity. Routes, vehicle capacity and departure times are designed around your facility's shift pattern and the home addresses of your personnel; the entire operation is coordinated from one point and reported daily.

Shift-Aligned Timetable

Punctual departure times suited to all working patterns, including three-shift operations.

Route Optimization

The shortest and safest route planning based on the distribution of personnel addresses.

Guaranteed Backup Vehicles

A pool of reserve vehicles and drivers that steps in for breakdowns and exceptional situations.

Digital Tracking & Reporting

Transparent monitoring of trip, timesheet and cost data through our own software.

How We Work

We bring a new staff transport project live in five steps. Thanks to our own fleet, the time from first analysis to first departure is on average 7–15 working days, depending on the size of the site.

01

Analysis

We review your shift times, the address distribution of your personnel and your current costs.

02

Route design

We produce the optimum line, vehicle type and capacity plan, with a cost comparison across alternative scenarios.

03

Pilot run

Trial departures are made on selected routes; pick-up points and journey times are verified on the ground.

04

Go-live

Driver assignment, vehicle branding, employee briefing and panel access rights are completed.

05

Reporting and improvement

Daily trip, monthly cost and occupancy reports allow routes to be re-optimized periodically.

Service Levels We Define in the Contract

The figures below are the levels we define in a typical factory staff transport contract; they are adapted together with you to suit your site.

INDICATOR	COMMITMENT
On-time arrival rate	≥ 99%
Replacement vehicle on breakdown	≤ 20 minutes
Trip and occupancy reporting	Daily
Access to the operations center	24/7
Site audit and route review	Monthly

— HEALTHY DRIVING PROGRAM

Safe journeys start with a healthy driver

We run a holistic program that continuously monitors the physical and mental health of our drivers, because a zero-accident target starts with the person behind the wheel.

01

Pre-trip check

Fatigue, blood-pressure and alcohol checks before every shift.

02

Rest-time monitoring

Working and rest times are tracked digitally; legal limits are never exceeded.

03

Periodic health screening

Annual medical check-up and psychotechnical assessment.

04

Telematics driving score

A monthly driving report from braking, speed and cornering data, with one-to-one feedback.

05

Lifestyle and ergonomics training

Training on sleep, nutrition, ergonomics and stress management.

06

Safe-driving award

Accident-free, high-scoring drivers are rewarded every period.

Quality Assurance and Training

Our trained people are the foundation of our service quality. Regular training and development programs are run in line with company objectives, and our entire driver and office team is periodically retrained and assessed.

Driver Training Programs

- ✓ ISO 9001 Quality Management System awareness training
- ✓ Transport legislation and traffic training
- ✓ Ministry of Health psychotechnical assessment (periodic driver fitness test)
- ✓ Defensive (safe) driving and accident prevention training
- ✓ Eco-driving: fuel-efficient, low-emission driving
- ✓ First aid training (Ministry of Health approved certification)
- ✓ Safety in student transport; training for child passengers and escort staff
- ✓ VIP service protocol: welcoming, dress code and confidentiality rules

Corporate and Operational Training

- ✓ ISO 14001: environmental management and waste awareness
- ✓ ISO 45001: risk assessment and site auditing
- ✓ ISO 10002: complaint management and root-cause analysis
- ✓ Operations software: usage and reporting training
- ✓ Crisis management and communication: emergency scenarios
- ✓ Data protection (KVKK/GDPR) and information security awareness

Staff Training and Performance

Performance reviews are held twice a year, in the 6th and 12th month. This system forms the basis of career planning, personal development and rewards.

Occupational Health & Safety

All employees are briefed regularly and our processes are continuously improved in accordance with ISO 45001 requirements.

Student Transport

From kindergarten to university: well-maintained vehicles, full compliance with safety measures and friendly, experienced staff for dependable school transport.

What the Service Covers

- ✓ Safety in student transport; training for child passengers and escort staff
- ✓ First aid training (Ministry of Health approved certification)
- ✓ Ministry of Health psychotechnical assessment (periodic driver fitness test)
- ✓ Legally required equipment (fire extinguisher, first-aid kit, warning triangle set)
- ✓ Full cover with personal seat insurance
- ✓ Vehicle tracking system and speed limit monitoring

PARENT, STAFF AND SAFETY SYSTEMS

Parent Information System

A student's boarding and drop-off, the vehicle's live location and estimated arrival are sent instantly to the parent's phone.

QR / Card Boarding

Staff and students board with a QR code or card; attendance and timesheets are created automatically.

Smart Notifications

Delay, route-change and weather alerts are delivered by SMS and app notification.

Airport and VIP Transfer

We welcome your international guests and senior executives at the airport with our latest-model luxury vehicles and, on request, provide a safe and comfortable transfer all the way to your hotel or facility. City introduction guidance is also available on request.

24/7

Uninterrupted transfer operations

İGA · SAW

Flight Tracked

Free additional waiting time in case
of delays

VIP Fleet and Guest Comfort

Our VIP-converted vehicles — with leather captain seats, individual USB and power units, ambient lighting, refrigerator and work desk — create a productive environment for your senior executives even while on the road.

- ✓ Latest-model Mercedes-Benz E-Class and S-Class, VIP Vito, VIP Sprinter; Ford Tourneo Custom VIP, Toyota Proace Verso VIP and Hyundai Staria VIP
- ✓ Suited chauffeurs trained in protocol and speaking foreign languages
- ✓ Automatic meet-and-greet planning for delayed or early landings via flight tracking
- ✓ Name-board welcome, baggage assistance and confidentiality commitment
- ✓ Live transfer monitoring screen with real-time status information
- ✓ In-vehicle television and multimedia entertainment system

Our VIP Service Standards

- ✓ Name-board welcome in the arrivals hall and luggage assistance
- ✓ Flight tracking; waiting at no extra charge in case of delay
- ✓ Hourly or daily chauffeur hire — on your own schedule all day
- ✓ Fast Track and CIP lounge arrangements at the airport on request
- ✓ Baby and child seats on request
- ✓ Protocol-trained chauffeurs bound by confidentiality

The right class for every need

We use the class system of international chauffeur standards. Across our fleet of Mercedes-Benz, Ford, Toyota, Hyundai and Fiat vehicles, bookings are made by class.

Economy

Fiat and equivalent cars

A budget-friendly, clean and air-conditioned option for short city and intercity transfers; up to 3 passengers.

Business Class

Mercedes-Benz E-Class · Latest model

For executive transfers and airport pickups; up to 3 passengers.

First Class

Mercedes-Benz S-Class

The top-segment executive car for protocol, government and VIP guests; advanced comfort and complete privacy.

VIP Van

Mercedes-Benz VIP Vito

VIP interior with captain seats; for small delegations and transfers with luggage.

VIP Sprinter

Mercedes-Benz VIP Sprinter

A spacious VIP cabin for delegations, trade fairs and factory visit programs.

Our VIP Van Options

Our VIP vans are fitted with leather seats, ambient lighting, multimedia and charging units, turning travel time into meeting or rest time.

CAPTAIN SEATS

Mercedes-Benz VIP Vito

The benchmark of its class. Facing captain seats, a work table and a quiet cabin make it the first choice for executive transfers and small delegations.

7 SEATS

Ford Tourneo Custom VIP

Generous legroom and a flexible seat layout for teams of seven; its luggage capacity stands out on airport and trade-fair transfers.

9 SEATS

Toyota Proace Verso VIP

A spacious cabin with sliding seats that brings comfort to family, delegation and team transfers.

9 SEATS

Hyundai Staria VIP

Panoramic windows and a modern design create a bright, roomy cabin; a contemporary VIP experience for groups of up to nine.

Operational Fleet Leasing

With monthly and yearly operational leasing tailored for companies, redirect the cost of buying vehicles into other investments and order vehicles with exactly the equipment you need.

Monthly · Yearly

Leasing options tailored for companies

0-5

Fleet age range (years)

Private Excursion Services

Transport to the destination your group has planned, in the requested capacity, with well-maintained vehicles and experienced chauffeurs. Accommodation and full-board catering are arranged on request.

City and Intercity Transfer

Within Kocaeli or between cities, from a single passenger to group transfers: call us and we will send the right vehicle to your door on time.

- ✓ Transfers between İzmit, Karamürsel, Gölcük, Gebze, Kartepe and every district
- ✓ Transfers from Kocaeli to Istanbul Airport and Sabiha Gökçen
- ✓ Intercity journeys to Sakarya, Bursa, Yalova and Istanbul
- ✓ Hospital, hotel, trade fair, meeting and special-occasion transfers
- ✓ Chauffeured vehicles by the hour or by the day
- ✓ Advance booking or same-day service; a clear price confirmed before you travel

Economy Vehicle Option

Budget-friendly, clean and air-conditioned cars, ideal for short city journeys. For more comfort, our Business and VIP Van classes are always ready.

Yacht Charters and Marine Events

For your international business partners, senior executives and teams, we complete at sea the service that begins on land. From the airport welcome to the pier transfer, yacht charter, catering and route planning, the whole process runs under one contract and one point of coordination.

From 15 to 42 metres, the right yacht for every event

From a day on the Bosphorus to multi-day Aegean and Mediterranean routes, from product launches to large receptions, we serve you with motor yachts, gulets and event yachts from 15 m to 42 m.

15–24 m

Motor Yacht

An agile and elegant choice for Bosphorus tours, sunset cruises and hosting small delegations.

25–35 m

Luxury Motor Yacht & Gulet

With cabins, overnight stays and crew; multi-day routes around the Princes' Islands, the Aegean and the Mediterranean.

36–42 m

Mega Yacht & Event Yacht

Wide decks, stage and catering infrastructure for launches, galas, cocktails and corporate celebrations.

OUR ROUTES

Bosphorus

Marmara & Islands

Gulf of İzmit

Aegean Sea

Mediterranean

- ✓ Hourly, daily or overnight charters on Bosphorus, Marmara, Gulf of İzmit, Aegean and Mediterranean routes
- ✓ Professional captain and crew, fully insured vessels
- ✓ Catering, refreshments and bespoke menu arrangements
- ✓ VIP vehicle transfer to the pier and a service car assigned for the whole day

Corporate Event Packages

Dealer meetings, product launches, team motivation events or guest hospitality: vehicle, yacht and accommodation packages are offered in a single quotation based on participant numbers and program flow.

Helicopter Transfer and Private Jet Organization

For multiple site visits in a single day, tight flight connections or senior delegation programs, we arrange helicopter and private jet services through contracted civil aviation operators. The road leg from the landing point to your facility is completed by our own VIP fleet.

PRIVATE JET

Gulfstream G500

The new generation of long-range business jets. With a wide, quiet cabin, large panoramic windows and high cruise speed, it flies non-stop from Istanbul to Europe, the Middle East, Africa and the US East Coast, so you land rested for your meeting.

PASSENGERS Up to 13	BEDS 4 people	RANGE ≈ 9,600 km
CRUISE SPEED Mach 0.90	CABIN LENGTH 12.65 m	CABIN HEIGHT 1.88 m

The right aircraft for every journey

From the extensive fleets of our contracted civil aviation operators, we select the helicopter or jet best suited to your passenger count and route.

4–7 pax

Helicopter

Short hops within the city, to factory sites and airports; minutes instead of hours in traffic.

6–8 pax

Light Jet

An economical, agile option for domestic and nearby European flights.

8–9 pax

Midsize Jet

Stand-up cabin and more luggage space; comfort on 3–4 hour flights.

9–10 pax

Super-Midsize Jet

Near-transcontinental performance, a wide cabin and a fully equipped galley.

12–16 pax

Long-Range Heavy Jet

Gulfstream-class wide cabins; sleeping layouts for delegations and non-stop long-haul flights.

16+ pax

VIP Airliner

Wide-body aircraft in VIP configuration for large delegations and corporate events.

Aircraft and helicopters are provided through our contracted civil aviation operators; the air and ground legs are managed under one quotation and one coordination point.

Holiday and Culture Tours

From corporate incentive trips to family holidays, from cultural routes to city tours: discover Türkiye from end to end with our comfortable vehicles, select hotels and professional guides.

Every detail of the journey, taken care of

- ✓ Transport by VIP vehicle and coach; airport-to-hotel welcome
- ✓ Select hotel and boutique accommodation booking
- ✓ Cultural tours with professional licensed guides
- ✓ Corporate incentive, reward and dealer trips
- ✓ Tailor-made programs by group size and budget
- ✓ Dining, museum and event arrangements in one quotation

Manage Your Operation from a Single Screen

With our proprietary software, developed entirely in-house, you can manage all of your operations digitally from one center. You can access the system instantly from anywhere in the world, on your phone, tablet or computer.

Timesheet & Overtime Management

You can create overtime requests and process your fixed timesheets with ease.

Fleet & Cost Control

Track the details of the vehicles used by your company, their live assignments and operating costs transparently.

Live Transfer Monitoring

Follow the welcome and travel process of your guests live on the map and receive real-time status updates.

Parent Information System

A student's boarding and drop-off, the vehicle's live location and estimated arrival are sent instantly to the parent's phone.

QR / Card Boarding

Staff and students board with a QR code or card; attendance and timesheets are created automatically.

Smart Notifications

Delay, route-change and weather alerts are delivered by SMS and app notification.

Emergency & Safety

Vehicle tracking, speed-limit monitoring and a one-touch emergency line to the operations centre.

Satisfaction & Feedback

Passengers rate each trip with one tap; complaints are recorded and resolved in line with ISO 10002.

Driving Analytics

Safe-driving scores, fuel and emission reports from telematics data; input for carbon footprint tracking.

Transparency for Your Procurement and HR Teams

User permissions specific to your company are defined at the start of the contract; you can export timesheet, trip and cost reports at any time. A demo account can be opened during the quotation stage on request.

Our Vehicles

WE VALUE OUR SOLUTION PARTNERS

WE SUPPORT THE PRODUCTS OF THE COMPANIES WE WORK WITH BY ADDING TO OUR FLEET THE VEHICLE BRANDS THAT USE THE PARTS THEY MANUFACTURE.

All vehicles in our fleet are between 0 and 5 years old, cleaned inside and out daily and serviced regularly at authorized workshops. With modern heating and cooling systems and comfort-focused interiors, they are ready for every road condition.

Our vehicles are also disinfected regularly by the certified company we work with and brought in line with the highest hygiene standards before your journeys.

- ✓ Daily interior and exterior cleaning
- ✓ Periodic maintenance at authorized service centers
- ✓ Regular disinfection by a certified provider
- ✓ Modern heating and cooling systems
- ✓ Legally required equipment (fire extinguisher, first-aid kit, warning triangle set)
- ✓ Traffic, comprehensive and financial liability insurance
- ✓ Full cover with personal seat insurance
- ✓ Vehicle tracking system and speed limit monitoring

WOMEN POWER PROJECT

WOMEN POWER

Trust at the wheel, equality on the road

EKERHAN Drives Major Change with Its 'Women Power' Project

Ekerhan Seyahat has launched its 'Women Power' project, which aims for women to take a strong place in transport as drivers, hostesses and operations professionals. The project is designed as a natural extension of the company's quality culture, built on a zero-error principle.

Trust, care and precision: the foundation of Women Power

For a company that carries employees, students and guests every day, the most valuable capital is trust. Ekerhan Seyahat believes that trust grows through attentiveness, care, a sense of responsibility and strong communication. 'Women Power' was designed to carry these values into every link of the journey.

Within the project, women take on roles ranging from staff and school shuttle driving to VIP chauffeuring, from school-bus escort duties to operations planning, in a working environment where they feel safe.

We see a journey not as a transport job but as a contract of trust. The strongest signature on that contract belongs to people who take care in their work, and we wholeheartedly believe women will bring that care to mobility.

— Anil Eker, Ekerhan Seyahat

The project's three commitments

01

Ekerhan Academy

Support with licensing and professional certification; advanced driving, VIP protocol, first aid and student safety training.

02

Safe and flexible work

Shift planning in harmony with family life, 24/7 operations-center support, vehicle tracking and equal pay for equal work.

03

A career without limits

A transparent, merit-based path from driver to trainer, from route supervisor to operations manager.

A company's strength is measured not by the size of its fleet but by the number of people who trust it. Giving women a voice on this journey is the guarantee of safer, more professional and more human mobility.

— Anil Eker, Ekerhan Seyahat

Candidates who wish to join the 'Women Power' project can reach us through the Careers & Application page on our website or at info@ekerseyahat.com.

Less fuel, fewer emissions, a cleaner future

— ECO-FRIENDLY MOBILITY

In line with our ISO 14001 Environmental Management System, we measure and reduce the environmental impact of every trip. For us, saving fuel is not just about cost; it is our responsibility to the climate.

Eco-driving and fuel saving

Telematics data helps reduce harsh acceleration, hard braking and idling, lowering fuel consumption and emissions.

A young, efficient fleet

Our vehicles, aged 0–5 years, meet current emission standards and run at peak efficiency thanks to regular maintenance.

Smart routing

Optimised routes reduce unnecessary kilometres, time in traffic and carbon emissions.

Occupancy optimization

Vehicle capacity is planned around shifts and passenger numbers, minimising empty seats and empty kilometres.

Paperless operations

Digital timesheets, QR boarding and electronic reporting eliminate paper use.

Carbon footprint reporting

We provide clients with trip-level fuel and emission data that supports their own sustainability reporting.

Preparing for tomorrow

We aim for a gradual transition to hybrid and electric vehicles and develop low-carbon mobility solutions together with our partners.

Careers and Application Forms

Would you like to join the Ekerhan family? Fill in the form for driver, hostess, office and operations positions, or to become a supplier with your own vehicle, and our team will contact you.
